

Centre Punches Round Head

CP-8WDST

Single piece carbon steel construction with round shank and round striking head

Accurately hardened & tempered so that the pin will withstand continuous use and the striking end will not splinter

Clean and well cut knurling for non-slip and positive finger grip

Working tip centred and ground to the correct angle (90° included angle) for increased efficiency in marking

Rust inhibiting black oxide finish

Ideal for clearly marking metal in work layout & making indentations in a work piece before drilling to ensure correct location of drill points

CP/8/WD/ST
(Set in a wooden box)
