

Drill Press Vices Unigrip

DPVUG
DPV3UG

Low profile & compact vices are suitable for use with drill stands, bench drills and drill presses in metal and woodworking applications

Graded cast iron construction with precision ground base and vice bed

Fixed jaw with 3 longitudinal and 1 transversal prisms for firm gripping of round stock both horizontally and vertically

Special seat in jaws for clamping of low height work pieces

Spindle moves inside the hollow hand grip making the vice usable on any position across the table
Elongated clamping slots for rapid adjustment of the vice on the work table help save time

3 Way Drill Press Vice

3 mounting options useful drilling along all axes with a single setting of the job and holding of long workpieces which are cumbersome and difficult to manage in regular vices

3 MOUNTING OPTIONS

Precisely ground base and vice bed

Fully ground side face allows for right angle machining with the same jaw setting. The jaw width acts as jaw height facilitating longer workpieces to be held

Fully ground end face allows for right angle machining with the same machine setting
