

Interchangeable Face Mallet

HMR

Multi-purpose striking tool useful for striking surfaces that could get damaged by steel hammers

Chrome plated head with 2 screw-in replaceable heads. Tubular steel handle shifts the weight balance towards the head for extra power in each blow

Available with a choice of heads:

a. Plastic Head

To lightly strike material without damaging or marring the surface. Used for piston cylinder assembly in engines, jewellery making etc.

b. Rubber Head

To deliver cushioned strike. Used in sheet metal & aluminium fabrication jobs, installation of wheel hub caps in automotive assembly & maintenance

c. Brass Head

Used in denting & painting shops, fitting jobs without causing any damage to the work surface

d. Copper Head

Provides a firm positive blow without any risk of marring the surface of highly finished expensive components

APPLICATION

- Light Engineering Jobs
- Injection Moulding
- Denting & Painting
- Assembly & Fitting in automotive workshops
- Jewellery Making
