

Quick Woodworking Clamps

KBC
PCB

Manufactured from "K" section steel profiled to minimize flexing & bending

Quickest adjustment mechanism - simply lifting the aluminium die-cast handle allows the sliding jaw to be moved anywhere on the rail

Four hardened rollers in the moving head maintain a constant 90° angle under load

Clamp jaws are encased in non-marring, glue resistant polypropylene casing

Throat Depth (T)

3-11/32" (85 mm)

Width of clamp face (W)

1-7/16" (37 mm)

Section

1-1/8" x 3/8" x 1/4" (29 x 9 x 6 mm)

5/8" (16 mm)
The clamp can be hand tightened upto clamping pressure of 2500 KN & remains perfectly square to the rail

Quick Action Clamp as a Spreader

The clamp is fitted with a plastic end stop to maintain it at level. By removing this end stop, the movable jaw can be reversed and be used as a spreader - very useful in building window & door frames

PCB/4/ST
Set of 4 Parallel Blocks. These are useful for efficient & accurate set up of raised panels, window & door frames, boxes etc.

ORDERING INFORMATION
