

Post Hole Digging Bar

PHD

NEW!

Heavy Duty 1" (25mm) round steel bar for higher strength in the toughest of jobs

Carbon steel bar with heat treated ends upto 50 HRC for higher durability and toughness over time

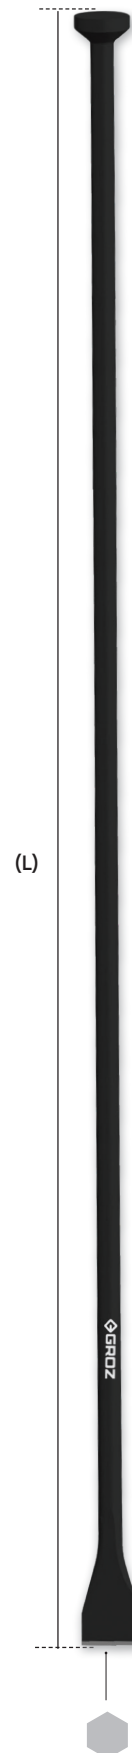

Post Hole Digger has a 2-3/8" (60mm) mushroom head at one end and bevelled chisel edge at the other

Overall Length of 69" (1750mm) for higher leverage

Balanced weight to length ratio for higher downward pressure while digging and striking

UTILITY

- Fence post work
- Digging holes
- Breaking up clay
- Cutting through tree roots
