

Multi-Use Rule And Gauge

RNG

A popular pocket-sized 5-in-1 tool, manufactured from stainless steel

Can be used as

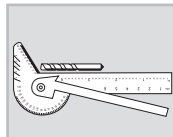

- Drill Point Gauge for checking 59° drill points
- Protractor for measuring and laying out angles
- Center Finder for locating centers on shafts and circles
- Circle Divider for dividing circles into sectors, polygons and polygrams (up to nine equal parts)
- Tap and Drill Table shows popular tap sizes and corresponding drills sizes for American National threads

Complete with a 4" (100 mm) rule with permanently etched graduations in 64ths and millimeter
