

Woodworking Vice Rapid Action

WWV-R

Rapid action mechanism which is unique and different from the conventional quick release mechanism

To tighten the vice, turn the handle in the usual way. As soon as the handle is turned in the opposite direction, the screw is disengaged and the front jaw slides freely

Manufactured from close grained grey cast iron

Accurately machined housings for smooth sliding movement

Vice jaws are equipped with a "TOE - IN" feature. When fully closed, the jaws meet only at the top to provide even clamping on the whole depth of the work piece

Main screw has Buttruss threads for smooth, accurate and responsive adjustment
